Study

Basic training for service on ships subject to the IGF Code

Essential safety training for alternative fuel operations

This STCW-certified course is designed for seafarers responsible for safety duties on ships using alternative fuels under the IGF Code. You will learn about the properties of low-flashpoint fuels, emergency procedures and

prevention of hazards. The training covers both theoretical knowledge and practical safety measures. Upon completion, you receive a certificate that meets STCW Convention V/3 requirements.

About this course

Location	Lloydstraat - Rotterdam
Language	English
Education Format	Classroom
Type	Basic
Erkenning	ILT

General information

The Basic Training for service on ships subject to the IGF Code (IGF-B) course is for seafarers responsible for designated safety duties relating to the care, use or emergency response to fuel on board ships subject to the IGF Code. The regulations are detailed in STCW Convention V/3, paragraph 4 and STCW Code A-V/3-1 and the course is in accordance with Model Course 7.13. The course is also suitable for office staff wishing to enhance their knowledge in this area.

Programme

1. Contribute to the safe operation of a vessel covered by the IGF Code.

2. Taking precautionary measures to prevent hazards on a ship covered by the IGF – code.

3. Taking precautionary occupational health and safety measures .

4. Conducting fire-fighting operations on a ship covered by the IGF – code.

5. Responding to emergency situations

6. Taking precautionary measures to prevent pollution of the environment from the release of fuels found on ships covered by the IGF code

Result

Upon completion of the course, the student will have knowledge of:

1. Characteristics of low flash point fuels;

2. International legislation and guidelines;

3. Working safely with low flashpoint fuel equipment;

4. Technical aspects related to low-flashpoint powered engines;

5. Bunker procedures;

6. Maintenance and inspection of low-flashpoint fuel systems;

7. Emergency procedures;

8. Fire prevention and firefighting training.

Target audience

Seafarers and office staff affiliated to the maritime industry.

Practical information
