

Combined Basic and Advanced training for service on ships subject to the IGF Code

Complete IGF certification in a single combined course

This combined course covers both the basic and advanced IGF Code training in a single programme. It is designed for seafarers responsible for safety duties related to alternative fuels on ships subject to the IGF Code. You will learn about fuel characteristics, safety procedures, emergency response and simulated bunkering operations. After completion, you receive both the IGF-B and IGF-A certificates.

About this course

Location	Lloydstraat - Rotterdam
Language	English
Education Format	Classroom
Type	Basic
Erkenning	ILT

General information

The Basic and Advanced Training for service on ships subject to the IGF Code (IGF-B) course is for seafarers who are responsible for appropriate safety duties associated with the care, use or emergency response of fuel on board ships covered by the IGF code. The regulations are elaborated in the STCW Convention V/3, STCW Code A-V/3-1 & 3-2.

The course is in accordance with Model Course 7.13, 7.14

The course is also suitable for office workers who want to increase their knowledge in this area.

Programme

IGF B

- Contribute to the safe operation of a ship covered by the IGF Code.
- Taking precautions to prevent hazards on a ship that falls under the IGF code.
- Taking occupational health and safety precautions .
- Conducting firefighting operations on a ship that falls under the IGF code.
- Respond to emergencies
